# Kids' Space

Does your business cater to children? Be included in our Kids' Space feature with a custom photo of children interacting in your space along with a clever write-up.

# Kids' Space

Our towns are great places for families, with many spaces that cater to children. Take a look at some of our local kid-friendly businesses.

## Fantasy Islander

Wait! Is this for real? Because I've just found my wonderland where I can be my goofy, creative self while learning all about Broadway theatre...how to act, sing, and dance. Plus, we play a lot of games and I'm making friends with a bunch of other kids who like to do the same things as me. We're working on our parts now so we'll be ready to perform in front of an audience. Wow, do I love this world!

## Personal Shopper

When one of my friends is having a birthday, I know I'm going to get their present at Sparkhouse Toys. Where else? I'm really good at picking out a gift they're going to love. First, because I choose whatever I would like and, second, because practically everything here is a contender. My only problem is that it's hard to part with the gift because I love it so much.

## Tooth Fairies

We love our teeth and can't wait until we get the big ones. Dr. Strachan helps us keep them really clean and white. She gives us toothbrushes so we can take over when we get home. We like to practice on some of the dolls she keeps here. Maybe we should be dentists when we grow up. Either that or tooth fairies. Both would be cool jobs.

*Dr. Davia Strachan, Pediatric Dentist, Specialty No. 4041*

## Color Consultant

Art class is my happy place because that's where I'm allowed to stick my hands in wet paint and listen for the "goosh" sound as I swirl different colors around on the paper. I found out that I can make many shades of green just by changing how much blue and yellow I combine. Maybe I'll find the right color for my bedroom walls, but I think then I'll have to use a brush.

## Jam Lover

It's awesome being back at music lessons. I've missed jamming with my instructor and the other musicians here. And I always learn so much, whether it's perfecting a new drum beat, trying out some cool software or playing with another group of students. Yeah, we're still wearing masks and they say the air is cycled like a million times an hour (which is good), but everything else feels normal and sounds great.
